Sungjae Park

sungjae1357@kyonggi.ac.kr | Personal Website

RESEARCH INTERESTS

Autonomous Driving Perception (3D object detection and tracking, multi-sensor fusion, localization and mapping, lane and drivable-area detection)
Decision Making and Motion Planning (behavior planning, trajectory planning, vehicle control)
Validation of Autonomous Driving Systems (simulation- and vehicle-based performance evaluation, scenario-based testing)
Integrating rule-based and AI-based approaches for reliable autonomous driving

EDUCATION

Kyonggi University, Korea — Mar 2022 - Present(expected Feb 2028)
Bachelor of Science — (Military Service: 2023 - 2024)
Major: Artificial Intelligence(CGPA: 4.12/4.5)

PUBLICATIONS

SungJae Park, Taehoon Kim, Sehoon Lee, Junho Ahn†. **3D LiDAR-based Indoor Space Modeling and Denoising Strategies**. Journal of Korean Association for Data Science (JKADS), Vol. 2, No. 1, pp. 23–33. 2026.

JongHan Lee, SungJae Park, ChaeEun Lee, AHyun Kwon, MinJae Kim, Hyun-Seok Shin, YeonWoo Hwang, WangDeok Seo†. **Privacy-Preserving LLM-Based Real-Time Employment Contract Analysis and Guidance System**. Proceedings of the Korean Institute of Information Technology (KIIT) Summer Conference, pp. 1290–1294. 2026.

PROFESSIONAL EXPERIENCE

AI Vision Lab, Kyonggi University — Dec 2025 - Aug 2026
Undergraduate Research Assistant Advisor: Junho Ahn
Research on 3D LiDAR-based perception for autonomous driving.

RO:AD Club, Kyonggi University — Sep 2022 - Dec 2025
Robot Operating & Autonomous Driving Club — (Military Service: 2023 - 2024)

PROJECTS

sLLM-based SPL Query Recommendation — Apr 2026 - Jul 2026
AI Vision Lab, Kyonggi University (with ROK Defense Communication Command)
Built the test set and evaluated fine-tuned sLLMs that generate Splunk queries for an air-gapped military network.

TURTLE: Autonomous Delivery Robot — Mar 2022 - Dec 2022
RO:AD Club, Kyonggi University
Developed a YOLOv5-based pedestrian detector with depth-based distance estimation on ROS.

Last Updated: October, 2026

HONORS & AWARDS

Service Award – SW Volunteer Corps 2026
Honorable Mention, Kyonggi University Foundational Capstone Design 2026
Grand Prize, AI Hackathon Competition 2025
Excellent Paper Award (KAICTS) 2025
Honorable Mention, Kyonggi University SW Imagination Company 2022

CERTIFICATES

MATCH-UP Job Competency Certification, Autonomous Vehicles: Perception, Decision, Control 2026
K-Mobility Forum Supporters 2025
LG Aimers 7th Cohort – Data Intelligence Track, LG AI Research 2025
Certified Software Test Specialist (CSTS) – Foundation Level 2025

INTERNATIONAL EXPERIENCE

Secure Coding Development Project, Singapore Aug 2026
2nd Place(Mini Hackathon) Advisor: Kiky SHANNON

VOLUNTEER EXPERIENCE

SW Volunteer Corps, Kyonggi University Mar 2025 - Present
Mentor & Team Leader
Taught basic programming and AI to local primary and secondary school students.

SKILLS

Programming: Python, C++, PyTorch
Simulation & Platforms: CARLA, VTD, ROS2, Autoware, F1TENTH

LANGUAGE

English: OPIc – Intermediate Mid 3 (IM3) May 2026

Last Updated: October, 2026
